Rationale	<p>Christian people in leadership have a responsibility to make decisions and accomplish results in a godly manner. Godly leaders must therefore be examples, especially in character and integrity, and function effectively in a variety of areas. Indeed the growth of a local congregation or any Christian enterprise is greatly impacted by a proper understanding and continued development of leadership.</p> <p>This unit defines a biblical basis for leadership and establishes a platform for reflection on the personal development of the leader's life, character and qualities. It enhances leadership skills and the outworking of leadership in ministry practice. As leadership occurs in most spheres of life, material will be taken from the church, para-church and business sectors to study ministry leadership and its associated practices. This core unit aims to help enhance the student's understanding of leadership and prepare leaders for the church and wider society who are theologically grounded and spiritually motivated.</p>
