Rationale	<u>Enduring Understanding:</u> Quality learning is supported through purposefully planned curriculum. This unit provides opportunities for the consolidation and integration of knowledge, skills and abilities developed in previous professional experience placements. Pre-service teachers will be given opportunities to investigate various dimensions, orientations, and elements of curriculum and curriculum work relevant to their teaching areas in secondary school contexts, and to understand how these are used in the development of curriculum. To consolidate and apply their learning about curriculum, pre-service teachers will construct a unit of work for secondary school contexts (including strategies, resources and assessment tools) based on one of their teaching areas within their professional experience placement. In this unit pre-service teachers further build upon their knowledge and skills for developing Christian worldview perspectives and engaging with Aboriginal and Torres Strait Islander worldview perspectives in their planning for teaching and learning. In this unit pre-service teachers will complete 20 days of structured, supervised and assessed professional experience in secondary school contexts. Throughout the embedded professional experience block, pre-service teachers will be provided with opportunities to reflect upon their developing teaching skills.
Prescribed text(s)	Selected readings will be available via the Moodle™ site for this unit.
